Al Deafah Colour Palette

Corrected sheet. Replaces page 14 of the Branding manual, version 1. CMYK values are the designer's ASE swatch file; RGB and HEX are the manual's, with three corrections: Deafah Blue (the manual printed Grey's values), Deafah Dark Red HEX (#1b4379 was a misprint; #C10016 is RGB 193/0/22) and Deafah Yellow CMYK (the manual repeated Beige's values; 17/36/97/6 is the ASE value).

Main identifying colours of the Group: Deafah Black, Deafah Grey and Deafah Yellow. Any palette colour may serve as a secondary accent; keep a project to 4-5 colours. All colours except Al Deafah Gold may be tinted down to 20 %.

* Pantone numbers to be verified against a current Pantone guide before ordering. All CMYK and Pantone values need a printer proof.

MAIN COLOUR

DEAFAH BLACK
